## Here's how our proven fermentation method works:

### Initial Culturing

Organic Saccharomyces cerevisiae is mixed with natural plant carbohydrates to create the transformative superbroth..

### **Targeted Nutrient Addition**

Targeted nutrients (vitamins or minerals to be fermented) are added to the superbroth solution.

#### 3 Whole Food Addition

Organic, non-GMO soy and additional organic whole foods, such as alfalfa, carrot, and orange peel, are added for continued fermentation. The Saccharomyces cerevisiae begins to absorb the vitamins or minerals into its structure, unlocking their full potential.

### **Enzyme Addition**

Enzymes from tropical fruits are added to slow down fermentation.

### **Probiotic Culturing**

5

Lactobacillus acidophilus. Bifidobacterium bifidum, and Lactobacillus rhamnosus are added. and low heat is applied to complete the fermentation process.

#### **Complete Formulation** 6

Individual whole-food fermented nutrients are intelligently blended to create exclusive formulations for different needs and life stages.

### **Delivering the** Wisdom of Nature

New Chapter's mission has been the same since we began in 1982-to Deliver the Wisdom of Nature through our unique whole-food approach to vitamins and supplements. New Chapter<sup>®</sup> goes to great lengths to bring you Earth's perfect ingredients for holistic health. Our intention is always to nourish body and soul with the healing intelligence of pure whole foods and herbs.

**PROTECT** cell health by boosting antioxidant production\*

**BALANCE** healthy inflammation response to protect cells from damage\*

**RECOVER** ATP energy to support healthy cell activity\*

# New Chapter<sup>®</sup> delivers the natural wisdom and benefits of fermentation through our products.

### Whole-Food Superbroth

New Chapter's proven, 2-step fermentation method uses a transformative superbroth with clinically studied strains of probiotics, organic *Saccharomyces cerevisiae*, and whole foods such as organic carrot and organic orange peel. The beneficial probiotics work to bring the vitality of fermentation to each vitamin and mineral: pre-digested and as close to what your body needs as food itself.

### **Fermentation Difference**

Transformed by the power of fermentation, New Chapter products are greater than the sum of their parts. Our fermented multivitamins and booster powders are easily digestible, and so gentle you can even take them on an empty stomach. Our fermentation method also creates a nutrient-packed fermentate and unleashes many beneficial factors, including Nature's immune-boosters called beta glucans.

### Message from Our Founder

66 My wife Barbi and I founded New Chapter<sup>®</sup> in 1982 to bring the remarkable value of Nature's whole foods and herbs into people's lives. We acknowledge tradition by fermenting vitamins, minerals, and herbs so they are gentle to take. New Chapter formulations are also validated by science—proven to work on the cellular level to activate your inner health. I invite you to experience the wisdom of fermentation! <sup>22</sup>
